## INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No.

PCT/EP2004/008823

**Box No. III Non-establishment of opinion with regard to novelty, inventive step and industrial applicability**

The questions whether the claimed invention appears to be novel, to involve an inventive step (to be non obvious), or to be industrially applicable have not been examined in respect of:

☐ the entire international application

☒ claims Nos. 1-9

because:

☐ the said international application, or the said claims Nos. \_\_\_\_\_  
relate to the following subject matter which does not require an international preliminary examination (*specify*):

**See Supplemental Box.**

☐ the description, claims or drawings (*indicate particular elements below*) or said claims Nos. \_\_\_\_\_  
are so unclear that no meaningful opinion could be formed (*specify*):

☐ the claims, or said claims Nos. \_\_\_\_\_ are so inadequately supported  
by the description that no meaningful opinion could be formed.

☒ no international search report has been established for said claims Nos. 1-9

☐ the nucleotide and/or amino acid sequence listing does not comply with the standard provided for in Annex C of the Administrative Instructions in that:

the written form

☐ has not been furnished

☐ does not comply with the standard

the computer readable form

☐ has not been furnished

☐ does not comply with the standard

☐ the tables related to the nucleotide and/or amino acid sequence listing, if in computer readable form only, do not comply with the technical requirements provided for in Annex C-*bis* of the Administrative Instructions.

☒ See Supplemental Box for further details.

## Supplemental Box

In case the space in any of the preceding boxes is not sufficient.

Continuation of:

**Box III: Non-establishment of opinion with regard to novelty, inventive step and industrial applicability**

The present claim 1 is directed to subject matter, in particular to a vehicle, that includes coach bodies which are coupled by **lower** articulated connections and **by upper articulated connections**, which subject matter has not been searched since it is contained only (implicitly) in the description or the figures and the Searching Authority does not consider it appropriate to extend the search to this subject matter (see the PCT Guidelines, paragraphs IV-15.18 and IV-15.21).

Furthermore, the subject matter of the amended claim 1 is not related to the originally claimed and searched claims by a single general inventive concept.

In consequence, it is not possible to establish an expert opinion in respect of novelty, inventive step and industrial applicability (PCT Rule 66.1(e)).
